Summary

Business Analyst with experience working on internal analytics dashboards and public-sector platforms, supporting PL visibility, financial troubleshooting, and seller performance tracking. Skilled in stakeholder communication, requirement analysis, Agile execution, and UAT, with a strong focus on improving decision-making and operational efficiency.

Skills

- **Project Management:** Develop Epics, Storyboard, User Story Grooming, Sprint Planning, Agile Practices, Scrum
- **Documentation:** Wireframing, Functional/Non functional/UAT Testing, BRD, FRD, SRS
- **Data & Analytics:** Power BI, Google Analytics, SQL, Prompt Engineering
- **Design & Digital:** Jira, MS Excel, Postman,Figma, Draw.io, Canva

Experience

- **Business Analyst – ShopDeck Internal Dashboard** Bangalore, India
  Internal Product — P&L, Seller Finance & Marketing Analytics *April'25 - Present*
  - Worked as a Business Analyst on ShopDeck's internal troubleshooting dashboard used for P&L monitoring, seller finance analysis, and performance tracking.
  - Gathered and documented business requirements from internal stakeholders including operations, finance, and growth teams.
  - Defined requirements for seller-level P&L analysis covering revenue, commissions, incentives, refunds, and profitability metrics.
  - Analyzed seller finance data to identify discrepancies, payout issues, and margin drops, supporting faster issue resolution.
  - Designed workflows and dashboards to track digital marketing performance for individual sellers across campaigns and channels.
  - Created user stories, functional specifications, and acceptance criteria using Jira and Confluence in an Agile environment.
  - Collaborated closely with product managers, developers, and data teams to ensure accurate data representation and business logic.
  - Supported UAT by validating financial calculations, dashboard metrics, and seller performance insights before release.
  - Used Excel and reports to perform data validation, trend analysis, and stakeholder reviews.
  - Helped improve internal decision-making by enabling faster troubleshooting of seller issues related to finance and marketing performance.

- **Business Analyst – US State Recruiting Portal** Pune, India
  Client: US State Government *Aug'24 - March'25*
  - Worked as a Business Analyst on a US state government recruiting portal, supporting digitization of public-sector hiring processes.
  - Collaborated with US-based stakeholders to gather, analyze, and clarify business requirements for recruitment workflows.
  - Prepared BRDs, FRDs, and user stories using Confluence and tracked requirements through Jira.
  - Documented as-is and to-be process flows for job posting, candidate applications, screening, approvals, and status tracking.
  - Coordinated with development and QA teams in an Agile/Scrum environment to ensure accurate implementation of requirements.
  - Supported User Acceptance Testing (UAT) by creating test scenarios, validating results, and managing defect resolution.
  - Used Excel for requirement tracking, data validation, and reporting during analysis and testing phases.

- Identified requirement gaps and process inefficiencies, contributing to improved recruiter and applicant experience.
- Ensured functional alignment with government hiring policies and compliance standards.

- **Impetrosys** Indore, India
  Business Analyst *Feb 2024 – Jul 2024*
  - Created user stories in collaboration with stakeholders and development teams.
  - Drove scrum events such as backlog grooming, sprint planning, and retrospectives.
  - Managed documentation of software and business requirements for clarity and traceability.
  - Performed functional testing and created wireframes for business discussions.
  - Collaborated with stakeholders to prioritize features and align product roadmap with business goals.
  - Improved sprint efficiency by introducing structured backlog refinement, reducing requirement gaps by 15%.
  - Facilitated cross-team communication, ensuring faster resolution of blockers and reducing delivery delays.
- **LTIMindtree** Mumbai, India
  Intern *Feb 2023 – May 2023*
  - Engaged in foundational training on SDLC, Agile, and development practices.
  - Acquired skills in HTML, CSS, JavaScript, and React.
  - Developed an understanding of product delivery strategy in enterprise IT.
- **IIT Indore** Indore, Madhya Pradesh
  Research Intern *Sep 2022 – Aug 2023*
  - Increased nanoparticle synthesis efficiency by 20% through green synthesis research.
  - Characterized 50+ samples using XRD and Raman Spectroscopy.
  - Designed research strategies for efficient material synthesis and analysis.

Education

- **Bachelor's Degree** – Vellore Institute of Technology, 2019 – 2023
- **Internship**: IIT Indore, Sep 2022 – Aug 2023

Training / Courses

- **Google Ads for Beginners** – Coursera Project Network
- **Excel & Power BI Certification** – Enhanced analytical skills
- **Agile Practices Course** – Scrum roles & responsibilities
- **Prompt Engineering Course** – Automated processes & documentation
